

PSE on bainbridge island

Current Bainbridge Island distribution projects

Improving the power system for our customers

1 NE Baker Hill Road

Objective: Replace overhead wire with tree wire

Customer benefit: Reduce the likelihood of tree-related outages

Status: Construction anticipated in 2023

2 Crystal Springs/Point White

Objective: Replace overhead wire with tree wire. Relocate a section of overhead electrical wire underground.

Customer benefit: Reduce the likelihood of tree-related outages.

Status: Pre-construction activity

3 Pleasant Beach Drive NE

Objective: Replace overhead wire with tree wire.

Customer benefit: Reduce the likelihood of tree-related outages.

Status: Pre-construction activity

4 NE Hidden Cove

Objective: Replace overhead wire with tree wire

Customer benefit: Reduce the likelihood of tree-related outages

Status: Construction anticipated in 2023

5 North Madison Ave

Objective: Replace overhead wire with tree wire and add an additional link between substations.

Customer benefit: Reduce the likelihood of tree-related outages

Status: Pre-construction activity

6 High School Road electric reliability

Objective: Replace overhead wire with tree wire

Customer benefit: Reduce the likelihood of tree-related outages

Status: Pre-construction activity

7 NE Winther Road tree wire

Objective: Replace overhead wire with tree wire.

Customer benefit: Reduce the likelihood of tree branch-related outages.

Status: Pre-construction activity

Past projects (2016-2022)

- Underground
- Tree wire
- Mixed
- Transmission lines

Current projects

- Underground
